

494 <>We shall see, what is this so it turns out there was not only one snowflake princess but 3, yes 3 the second one hailed from Vail, Colorado and that storm took a highly unusual track and the snowflake Castle landed on Mustang is  
 495 <>A hurricane was coming ashore and just in the nick of time a heroic brave bareback rider Hoss saved the day swooped in and saved the snowflake kingdom from the incoming storm surge.</p>
 496 <>Hoss had no sooner made eye contact with princess Aspen when she waterpout spun ashore and whisked the snowflake kingdom 2 from the arms of hoss and so to went the princess, heading back towards on a whirlwind to Colorado.</p>
 497 <>Snowflake Princess 3 Brandy from Jersey, also known as the high maintenance Princess had enough of this snow business and wished for something different, the nor'easter or the century took control of the operation.</p>
 498 <>as weather works in mysterious ways, drifted over 195 headed for Florida then Bee-lined sailing over AIA eventually landing in key west, Florida landing a fat Tuesday's Daiquiri bar lol. Jimmy Buffet music echoed through the air.</p>
 499 <>Cactus Rich a bartender by night and treasure hunter by day, rescued her from the frozen lava libation mixing machine just in time. They spent a few hours conversating on tazy swinging hammocks strung between the royal palms,</p>
 500 <>On cue a cool breeze picked her up and she sailed the trade winds back north. Stay tuned. </p>
 501 <>11/15/2020</p>
 502 <>Happy Birthday Lisa and my sister Barbara's Birthday was yesterday.</p>
 503 <>The Presidential election is still up in the air and the results will probably be overturned as I've ignored the bulk of media calling it for Biden.</p>
 504 <>Corruption and Scandal loom large.</p>
 505 <>The software and hardware used 30 states created by Dominion voting software made by Smartmatic has malware and backdoors designed to create malicious and false results. </p>
 506 <>If they let me look at the source code I would be able to point out exactly where this code is not rocket science, vote manipulation process is happening.</p>
 507 <>The votes were not even be tabulated and counted here in the USA, the US Army raided a server holding the DATA in Germany, the company was in Venezuela, kickbacks to election officials that signed off on these "secure" machines.</p>
 508 <>Up to 4 Million votes may have been changed, manipulated or deleted, there is a back door that lets votes in the system be extracted and drag and dropped into folders then deleted or changed.</p>
 509 <>It appears to be a coordinated plan as several states stopped counting votes, the software allows 3rd parties to log in and observe in real time. A video of it <a href="https://youtu.be/1W0u45b-U" target="\_new">https://youtu.be/1W0u45b-U</a> Target - "new" shows fraud her</p>
 510 <>Software patches were added to make the machine read only the votes you wanted, algorithms are showing this happened late at night. They were just stupid to think they were going to get away with any of this.</p>
 511 <>11/23/2020</p>
 512 <>As time rolls on I've lost a lot of good friends Joe Gosselin to cancer, I had not seen him in a long while but he was one of my best friends for a long time. </p>
 513 <>I emailed his wife and told a story to one of his grown daughters about his heroics as a Soccer kid and donated to his cause kids and soccer.</p>
 514 <>Catherine Moore, she is in a few photos on the site, we are told she made bad decisions in the end. We met up may be 5 years ago when she called me out of the blue, it had been 10 years.</p>
 515 <>She had me meet her at a kind of run down hotel by the old Stapleton Airport, in fact at first we did not recognize one another. She was gravely thin, had changed her hair color to a dark black </p>
 516 <>A creepy guy phoned over and over, she had a little dog that crapping all over the place, I had enough after about an hour, I saw her one more time.</p>
 517 <>We met at a different hotel and said her dad was paying for it, she didn't remember meeting me a few months earlier. I drove down from Fort Collins, she had called countless times. </p>
 518 <>The dog was gone, she did not know where, it looked like she only had one shirt, in the day she was a stunner and happy go lucky, lit up the room, full of spirit.</p>
 519 <>This cat was different, I tried talking with her, I thought she would want to go out and do something fun. She then asks to borrow \$20, I'm like OK, makes a phone call </p>
 520 <>Asks me to drive her to downtown Denver, a sketchy part, tells me to park, hop's out like I'm an uber driver and says please don't wait. Yes I left and that was my last contact with her, I was so sad.</p>
 521 <>So 2 years passed until last fall, I tried to look her up and saw there was a funeral with no obituary. I contact Emily, her best friend from child hood, she had no idea.</p>
 522 <>Heck I'm even friends with Eddie her step dad on Facebook and so is she, they made my attempt to contact us about it. Yes Cat was another victim of the opiate epidemic and homeless.</p>
 523 <>On a current note, more than ever I'm afraid for my life because of the Covid virus. One of my favorite people on the planet Bettie, one of my best friends mom's, like a second mom to me.</p>
 524 <>I just saw her less than a month ago, we had a great conversation as always, Covid, she caught Covid, 5 days ago and passed from complications of it in her sleep at 79. </p>
 525 <>This morning we had a phone alert, first one ever, we are in a high risk Covid area. I'm on a CAP, I have Asthma, Diabetes, Rheumatoid Arthritis and Morbid Obesity on plenty of meds and vitamins.</p>
 526 <>I don't want to die from it, I'm in shock, it is no joke. My parents want me down for Thanksgiving this week, I'm going but when does all this end.</p>
 527 <>They need to approve medication that heals now, if the election was rigged throw the bums out and lets get on with it.</p>
 528 <>I sure as heck don't want these monsters running the country if the fix was in and it sure seems like it was fixed by rigged equipment for sure, we shall see. </p>
 529 <>I'll continue to work as much as I can but a lot of the country is going into lockdown again.</p>
 530 <>12/4/2020</p>
 531 <>The Presidential Election is still not officially decided, things are so screwed up right now, I'm tired of the mask wearing and protocols, give me back my freedom. </p>
 532 <>I decided listening to Astral Projection stuff on youtube. I decided heck with it I'm going to the future, currently I'm working with Dr. Tansey, he has NeXT app called Brain Scan.</p>
 533 <>I ke a lie detector, wait just a minute here, we have AI coming at us as well. There I am Astral Flying and it all came to me as I yes I've done coding. The software reads your mind holy crap, </p>
 534 <>I n Scan to do it is genius, BILLIONAIRE, what number am I thinking between 1 and 10, if it tells me 7 and I'm thinking 7 well in an objected oriented world 7 = routine 7.</p>
 535 <>7,4,2,1 from your library of stored database objects, in that order may be f f a, then - b, else =c. AI picks up on what you are throwing down in code. </p>
 536 <>re, using these library of objects and these parameters, AI write it, here is what I'm thinking as an outline, boom it drops it in order, it is already debugging lol, </p>
 537 <>I can see what you are trying to do, it has been there done that, it is talking to you at some point, we will be able to give it a conscious. </p>
 538 <>I ll just bet it can fill in the blanks based on the data to optimize healing nano tech solutions, once it is in synch with all of our biological systems. </p>
 539 <>I it knows my weakness for cookies lol soft underbelly of the beast and sets a goal accomplish this task that the iphone lays down and you get a gold star. </p>
 540 <>ur homework, oh my we must find AI's weakness as well, yes I need sleep stay tuned. </p>
 541 <>Check Spelling...</p>
 542 <>Add as Snippet into Toolbox</p>
 543 <>Share ..</p>
